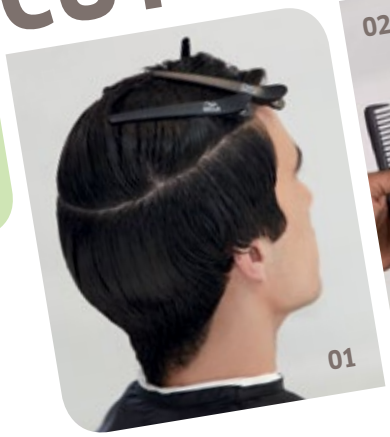
TIPS & TRICKS

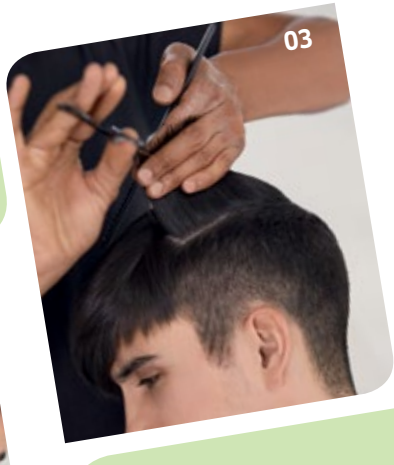
These days men are spending more and more time styling their hair. They like trying out multiple different hairstyles and enjoy adapting their look, so don't be afraid to recommend styles or products that are new to them.

CUT

CUT 01
Create a horseshoe section down to the occipital.

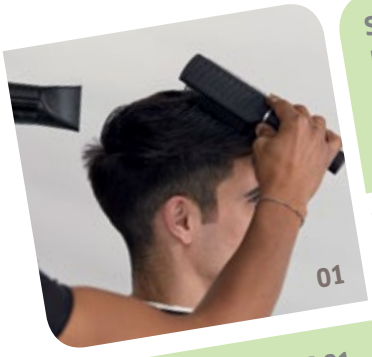


CUT 02
Cut the sides and back with a Wella Xpert with a grade 8 at 4mm length.



CUT 03
Take vertical sections and cut the hair using a point cutting technique. Cut short lengths at the back to long lengths at the front.

STYLING



STYLING 01
Flatten the hair with a Wella Flat Brush in combination with a Wella Sahira hairdryer.

STYLING 02
Perfect the finish with the Wella Style Iron and texturise the hair as you wish.

STYLING 03
Take a small amount of Grip Cream, warm up in between your palms and apply all over to create a ruffled look.

STYLING 04
Set the style with Super Set Finishing Spray.
