COLOR

STEP 1 >

Section hair as shown into a large oval in top and back sections and a small triangle at the fringe.

< STEP 2

Start at the sides with color A at the root blending into color B in the mid-length and then back to color A in the ends.

STEP 3 >

Continue working in the same way through the sides and back, up to the edge of the large oval section.

< STEP 4

Release the large oval section and from a center parting take a 3cm zig-zag section either side of the parting, secure with a clip.

STEP 5 >

Continue working through the oval section up to the zig-zag on either side in the same way with colors A and B.

< STEP 6

Release the hair in the zig-zag section and apply color C at the root, B in the mid-length and C in the ends. Do the same through the final fringe section to complete.

CUT

< STEP 1
Starting at the front elevate the hair and slide cut the fringe to fall at the center of the nose.

STEP 2 >

Take 3cm sections working from the hat line to the hair line and over-direct the hair to the center of the nose. Slide cut leaving length towards the ends. Repeat other side.

< STEP 3

Continue in this way through all sections to the center back using the side section length as the initial guide. Repeat other side.

< STEP 4

Slide cut through the fringe to create soft texture.

STYLE

< STEP 1

Apply EIMI Sugar Lift to create a grippy and touchable wavy texture with shine.

< STEP 2

Blow-dry the hair using a medium round brush in different directions twisting the hair to create a wave movement.
